ELOHIM OF PURITY

Hail to Thee, Elohim of Purity!
God of Creation's pure light;
Coming to Master maturity,
Earth now aspires to Thy height.
Fourth of the Elohim gracious,
With power none can excel;
Into Thy heart—heavenly, spacious—
Come we forever to dwell.

Thou art God's love in Its fullness,
Anchored within every brow;
In all the worlds of Earth's people
Take Thy dominion right now!
Purity's the heart of Creation—
Centralized core of each Ray;
Power and vict'ry's within it,
Melting all shadows away.

Dazzling, celestial, majestic—
Perfection most truly Thou art!
God is revealed in Thy Presence,—
"Blessed the pure in heart!"
Without Thy radiant essence
Nothing of worth can endure;
"I AM" the call from Earth's people—
"Make us eternally pure!"

Thy great solicitude ever
Tenderly answers each call;
Swifter than arrows Thy blessing
Rushes to heal and free all.
Let now the fire of Thy substance
Burst forth! Illumine each one!
Let Thy great Flame of Ascension
Raise all when life's journey's done.

Blessings from Helios and Vesta—
Elohim of Purity (Claire);
And from the Heart of the Silence—
Call we love's blessings from there.
Then from the Heart of the System,
Glorious Great Central Sun,
We call for Thee and Thy Heart-Flame—
Gratitude—MOST HOLY ONE!

MELODY: Original

Nov. 7, 1954

I AM the Elohim of PURITY! Because of your great light, love and interest in "The Light of God That Never Fails" all through the years, I have been invited into Earth's atmosphere again today. I am the Guardian of the Immaculate Concept for this sweet planet Earth, as well as for this entire Universe. I am also the Guardian of the Immaculate Concept of your own individualized Divinity, which is fashioned from White Fire substance and lives in the God-free Realms. This is your Pattern of Perfection originally created by the Godhead and *that Being*, in all Its perfection, *you must one day become!* I am more than this, too. I am the Flame of Cosmic Christ PURITY—the *natural activity* of your own life; not something that must be wooed; not something that must be drawn from without.

I am the living, breathing PURITY of the electron which lives in the center of the atom of which your physical bodies are composed. This electron vibrates so rapidly that no discord can enter into or contaminate it. As the substance of My Flame is one with the substance of that electron, then *I am alive in every cell of your body*, moving around the central core of every atom of your flesh, even this moment as I speak to you. Truly can I say with Jesus—"I am with you always!" *I am your life.*

I am the living breathing electronic light of PURITY within your mental bodies, closed in, yes, by the shadows of atomic consciousness; waiting now to be released in order to manifest the perfection of your Divine Conception.

I am the living, breathing Flame of pure light, invoked by each one of you into the great sea of your emotional world; awaiting release to again manifest perfection by the purification of the energies of the atomic consciousness.

I am the pure electronic light within every cell of your etheric garment, upon which you have impressed those records of impurity and I am now expanding My PURITY from within every cell and atom of all your four lower vehicles (emotional, mental, etheric and physical) *expanding, expanding, expanding* My true nature which is the purification of this Earth; all that is in the Earth, on It or in Its atmosphere.

Complete Nature of God in Each Electron

Beloved ones, let us consider electronic light for a moment. If you could stop one electron as it passes through the Universe, or stop it for a moment as it passes from the heart of your Presence into your physical heart, you would see that that electron contained within itself all of the nature of the Godhead; all of Its powers; all of Its majesty *and all of the Divinity which is within the God-parent! The electron itself can never be contaminated*, for My Flame of Cosmic Christ PURITY lives within everyone of them. In the course of a single second, millions and millions and millions of these tiny electrons are literally bombarded from the heart of the Universal First Cause through your God Presence into your physical heart,—then out into your world.

If this be so, from whence comes the shadows, limitations, illnesses, appearances of age and depressions? These discordant appearances are but the "clothing" of those electrons by shadows created from the habit of placing the attention, thoughts and feelings of the outer self upon imperfect appearances in its environment and in the atmosphere of Earth. With your conscious acceptance of My service now, I shall endeavor to remove as much as possible of this shadowed substance around your electrons by the mercy of God and by expanding the power of My Flame of PURITY *which is already within you.*

I speak directly now to the electrons which have come from the Universal First Cause, having answered the call and obeyed the magnetic pull of the Immortal Three-fold Flame within your heart. In and by the power of God Almighty, I now decree that continuous and permanent expansion of that Flame of PURITY in every cell of your bodies. I command this to remove the effluvia (shadows) there and transmute into light every rate of vibration which is an impurity and causes human limitation. I command this done *now* by the most powerful Cosmic action of the Blue Lightning of Cosmic Christ PURITY from My heart which has ever been known to manifest on Earth!

In the Name and by the power of the Great Central Sun of this System which was vested in Me when I was made Guardian of the Immaculate Concept of the sons and daughters of Earth, I decree that the PURITY within the heart of every one of your electrons shall now EXPAND! EXPAND EXPAND! EXPAND EXPAND! EXPAND! EXPAND! EXPAND! EXPAND! until that which appears as limitation can no longer imprison your life in discord and, thus, the shadows cease to be!

Flame Within the Heart—Real "Atomic Accelerator"

Do you know that the greatest "Atomic Accelerator" in the Universe is really that Immortal

Three-fold Flame within your own heart? The acceleration of the speed of the electrons around the central core of the atom within your four lower bodies, is accomplished by the *conscious directing* of that Flame of Life within your own heart? Do you know that when you call for the "Atomic Accelerator" to appear here in multiple numbers for the beneficial use of the people in this physical appearance world (as you have been doing here for years) that the momentums of constructively qualified energy released by this group thus far actually have made its activities to be the first of those "Accelerators",—active on this Earth, actually accelerating the vibratory action of the four lower bodies of the mankind of which you are presently a part? Now, this acceleration released by your calls has been far more powerful than that which would have been released by any *mechanical instrument*; which instrument, however, shall come forth later here for the use of the masses; the pattern having been set by the "Heart of Freedom."

When We enter into the living, breathing "forcefield" which has been drawn and established here all through the years by the release into it of your vibrant, vital energies, what happens? The mighty God-Beings, Angels, Devas and Ascended Masters Who have focused Their energies and vital Rays of light into this room—all this becomes a part of your service to life and adds to the size and radiance of your "forcefield".

The radiation of the pure light substance from These Great Beings, as it comes into the room, accelerates the vibratory action of the electrons of your flesh and inner bodies, just by Their attention focused upon you. As these electrons are quickened in their speed of vibration, there is thrown off the substance of darkness and shadow (created by discordant thoughts, feelings, spoken words and acts of the past) and these shadows are then transmuted into light by the powerful action of the Cosmic Violet Transmuting Flame which fills the room.

O, you who have longed so earnestly to sit within the "Atomic Accelerator" (about which Saint Germain has spoken to you),—remember that these will be provided for the mankind who have not yet learned the mastery of expanding the Flame within their own hearts. However, every time you gather together here; *every time you come within the compass of this "Atomic Accelerator" of Freedom*, there is thrown off from your physical and lower bodies into the Violet Flame so much discordant accumulation that My heart rejoices. This purification also takes place for you, *even when you just direct your attention into this room; for, "Where your attention is—you are"!*

The groups which are willing to abide in the disciplines that We have given; releasing their energies joyously and willingly in decrees, songs and visualizations; thus quickening the vibrations

of their four lower bodies; such groups become the acceleration for all in their localities! In the Orthodox world, you have heard much mention of "the quick and the dead". This merely refers to the difference in the rate of vibration of the four lower bodies of mankind (physical, etheric, mental and emotional). The main difference between your unascended bodies and the perfection of Our Own is merely the difference in the rate of vibration of the electrons spinning around their central core in the atom. You see, Our electrons move in an extremely rapid rate of vibration, due to the complete purification of the energies of Our vehicles of expression which We have achieved.

You, too, are gradually achieving this more rapid rate of vibration in your own four lower vehicles (bodies) by the purification you receive from your individual applications of the Law in the use of the Violet Transmuting Flame and other activities of the Sacred Fire; as well as by your participation in the class work.

Purification Necessary for Comprehension

Do you know how much purification is necessary within your mental bodies before you can even *accept Our reality* and Our capacity to speak to you? It would be a source of very great personal gratification if you could see how pure your vehicles had to be before We could even attempt

the experiment of coming "through the veil" to speak Our words to you! You see, the vibratory action of the feeling worlds of the masses of the people is so slow (their worlds being filled with all sorts of disbelief and doubt), that even were they to hear Our words, those words would not be accepted by them as Truth; nor would they believe that those words *were actually coming from Us* as Real God Beings. The vibratory action which has been established in your vehicles through all these years of application (individual and in groups) has made possible this spiritual association and partnership today.

Dearly beloved ones, when you are "caught up in the Spirit", so to speak; when you are gathered together here as you are this morning; the vibration of your bodies is raised, each one, to its present ultimate point of comprehension. Then there is anchored into your worlds as much of the substance, energy and vital fire of Our Beings as We know you can individually absorb. What happens next? After the meeting is over and your attention is again upon the things of this world, *you go back into the accustomed vibratory action of your own aura by giving it your attention again* and thus connecting with the effluvia of the individuals with whom you live, with whom you work and the appearances of less than perfection by which you may be surrounded. That which has seemed so simple, so easy of accomplishment *while you were in class and your attention was upon Us*

(for that is *Our feeling* of mastery which We have given you through radiation) then recedes from your outer consciousness—because, by your change of attention, you allow the feelings of depression, doubt, fear and general effluvia of discord (which represents the general consciousness of mankind) to enter again into the subtle essence of your mental body; into the sensitive consciousness of your feeling world; into your etheric body and then into your flesh.

It is My hope and sincere decree that those whose worlds have been accelerated to the point where they *can* grasp and comprehend this Law, may learn that *constant vigilance* is so necessary to enable them to hold the vibrations of their inner and flesh bodies *above* connection with that of the mass mind. I now decree that this shall be so powerfully charged into your outer consciousness that you never again forget it and thus sink back into the inertia which has made you "sleep" for centuries; just accepting the minimum life has to offer; just to keep your bodies alive and your souls nourished to a certain point. *Again, if you will consciously accept it*, I now create around you and your worlds a great oval of pure, blazing white light from My Own heart, which is the vibratory action of My consciousness. This will act for you as a deflector to those currents of discordant energy in which you move in the outer world; which slow down the vibrations of your

inner and flesh bodies and again connect you with the mass distresses of mankind.

Law of Life—A Science of Vibration

Beloved friends, as the Great Ones have told you many times, *the action of this Law is mechanical*. It is absolutely and positively a science of vibration. The speed with which the electrons revolve around the central core of each atom in your mind (mental body) is determined by the thoughts you entertain. When those thoughts are of perfection and on the expansion of God's good to His Universe, the vibratory action of the electrons in your mental body is rapid and they deflect the mass thought-forms of destruction which float in the atmosphere of Earth. These are deflected just as a rapidly whirling propeller deflects dust which would otherwise rest upon it. When you allow your mental body to connect with discord, whether it be recorded in newspapers, over the radio, television or in passing conversation, you immediately slow down the vibrations of your electrons. As they slow down, they are more "open", let us say, to the mass accumulations of depression, fear and other negative conditions; which then anchor into your mental body and draw it from the upward course of your aspirations.

The same is true of your emotional bodies. You come into these magnificent classes, sending

your love and adoration to the Ascended Masters and other Great Beings in songs and decrees. In this way, you raise your emotional bodies into a more rapid pulsation. The electrons move more rapidly around their central core in the atom and your emotional body is then magnetizing *only that which is good*. As soon as you allow your feelings (emotions) to tie into disapproval, fear, anger or discord of any kind (and the name thereof is "legion"), you slow down the vibrations of those feelings and lower them into the strata where those mass feelings of imperfection abide.

When you endeavor to satisfy the appetites of the four lower bodies by taking into the physical form intoxicating liquors, flesh foods, chemical combinations which do *not* agree with your particular well-being, or taking into the body more substance than it needs to keep it in a healthy condition, fermentation, general disintegration and, finally, "death" ensues. As the electrons move more slowly in their orbit around the central core of the atom, you thus open your flesh bodies to disease. It is just the mechanics of living. The holding of your attention one-pointedly upon the ever-presence of God, together with the assistance of this oval of blazing light which I have established about you today, will enable you to keep your four lower bodies vibrating above the discord in which you move. Then, truly, it can be said that there is nothing in you to which evil and discord can tie!

How think you that the Great Archangel Michael can live twenty hours out of every twenty-four within that substance of the Psychic and Astral Realm and not be touched by it? It is because He keeps the vibratory action of His vehicles whirling at such a tremendous speed that it repels the discord and keeps His world disconnected from the hate creations around those He contacts and desires to set free.

Life So Merciful to New-born

Blessed, beloved ones! Think of the bodies of children when new-born. They come into embodiment with as much of the mercy of the Cosmic Law's goodness as can possibly be allotted to them and this mercy provides for many of them a far better physical vehicle than that to which they would have been entitled otherwise. The vibratory action of the baby body is much more rapid than that of the same body when the soul has used it through a long journey of Earth life. As a rule, especially if there is even a moderate amount of harmony between the parents and among the family in the home, children throw off depression and disease much more easily than do individuals of middle-age or older.

Beloved ones, you who are engaged in this great Endeavor; who have passed through the first fifty years of your life in this embodiment and find it difficult to quicken the rates of vibration

of the electrons of your flesh and inner bodies, have just accepted that mass accumulation from the race consciousness. You have just allowed the vibratory action of your physical and inner bodies to "run down" as has the vibratory action of the entire race "run down"—as it passes from youth to maturity and then to "old age".

By the power of the Immortal Three-fold Flame of Life within your own beating heart, *consciously* and *dynamically* draw the Violet Transmuting Flame up through your four lower bodies and up through the atmosphere around you for at least nine feet on every side. This will cause your electrons to be able to spin much more rapidly around their own central core in every atom, because as the Violet Flame passes through your atomic structure, It dissolves and transmutes into light the denser shadowed substance of discord which you have allowed to lodge between the electrons; these shadows actually forming a weight upon them—thus causing them to vibrate more slowly. Do you see? Try to *accept in your feelings* that every cell and organ of your physical body is expressing its Divine Pattern and Plan and refuse to accept "slow death". *Instead, accept and determinedly insist upon LIFE ETERNAL!* It is yours by Divine Right! If you will do this, that which is of shadows will be much more easily dislodged from the atom,—swept into the Violet Flame and be no more.

Your physical form is created by your Body Elemental, the Devas and Builders of Form and it is builded around the vibrations of the musical keynote of your lifestream. As each of the organs of the body is set into motion, the electrons (which spin around the central core of the atoms which comprise those organs) follow the same rhythm and pattern as your musical keynote. When one allows the inharmony and discord of the outer consciousness to break that rhythm and thus one or more organs is thrown off the natural harmony of following its keynote, then there begins the manifestation of disease—discord and disintegration of the various organs, preceding so-called "death".

Beloved ones, I come to you today (and through you to all mankind, for all life is one) to re-affirm that the vibratory action which makes up the rhythm of the electrons within the atom *is under the conscious control of your outer consciousness* which, in turn, should be completely governed by the "I AM" Presence through the Holy Christ Self. If you choose to experiment with this diligently, you will find My words are Truth.

*Elohim of Purity's Part in
The Seven Steps to Precipitation*

In the beginning, when the great Helios and the Beloved Vesta invited the Elohim to create the planets of our System, Beloved Hercules con-

veyed that invitation to Us and We, individually as well as in a collective body, said: "We WILL to render this service". In connection with the creation of the planet Earth, well do I remember the time when all of Us were drawn around the beautiful Being, the Silent Watcher of this planet. Well do I remember the Flame of Cassiopea which ILLUMINED to Us the Light Pattern of this planet, which pattern was held within the Silent Watcher's bosom, placed there by the Beloved Helios and Vesta. As We looked upon It, We all felt the LOVE of Orion and an intensified desire within Ourselves to co-operate with the God-parents and bring that planet forth into perfect form.

Then came My service to life; to hold that Pattern and Plan inviolate through the Cosmic Flame of PURITY, so that not one blade of grass, not one flame-flower should be externalized that was not a portion of the Divine Idea,—the Pattern of Perfection as It was held within the bosom of the Silent Watcher. All through the ages, while the creation of the Earth was taking place, I held that Flame and Pattern of PURITY. This, coupled with the illumined obedience, the sincere humility and the love of the Elohim,—not desiring to externalize Their Own pattern and form but desiring only to bring forth that which was the Divine Plan for the Earth,—brought to My heart happiness indeed.

As you have been told, following My holding

of the Immaculate Concept for the Earth through the use of My Flame of PURITY, My Beloved Brother Vista ("Cyclopa") brought into action His Flame of CONCENTRATION.

Then came Our Beloved Arcturus with His activities of the Seventh Ray—RHYTHM OF INVOCATION and the TRANSMUTING POWER OF VIOLET FIRE. The "Seven Steps" were then fully completed by the sealing of the entire creation within the Flame of the Beloved Elohim of PEACE.

*Earth Being Redeemed by Calls for Purification
from Those Evolving Here*

The planet Earth now has fallen far below Its original Divine Design and Pattern which I still guard at Inner Levels and which shall yet be re-established for the Earth. Therefore, it brings great happiness and joy to My heart when I see unascended lifestreams willing within themselves to hold up the "cup" of their consciousness and receive again within it even a glimpse of the Pattern of Perfection for this dear Star and for the evolutions upon It (the people of Earth, the Elemental Kingdom and certain of the Angelic Host who volunteered to assist mankind by taking physical embodiment here). It is a joy that I can scarcely put into words to know that, somewhere on this planet Earth, are those who wish to see made manifest the Immaculate Concept for them-

selves, their fellowman and the planet as well; those who wish to rejoice with the God of all Creation in the perfection of that Divine Design made manifest again.

Then—O, the greatest joy of all—to know that there are those who wish also to use their own energies to help to re-establish that Pattern of Perfection and to bring forth for the Earth and all Its inhabitants the outer manifestation of the Divine Will of the Father. Why would I not rush forward to meet such earnest ones? Why would I not joyously give you, at your call, as much of the power of My Flame as you can accept into your consciousness and show you the perfection which this planet is yet to manifest? Our dear Saint Germain has endeavored for so long to redeem the Earth and make It the planet which shall be called "The Star of Freedom". Then, why would I not bring the vision held in the heart of the Silent Watcher down through the emotional, mental, etheric and physical planes of expression—and lay it before you? To see this Divine Design externalized here again is My reason for being and neither the Other Elohim nor I shall cease to endeavor to assist the Earth and Her evolutions until Our responsibility here is fulfilled. To fulfill it, We require the loving co-operation of unascended beings like yourselves. You are precious, dear and sincere ones who are willing to call forth that Flame of PURITY, the Violet Flame and other activities of the Sacred Fire which can be

released from the heart of the Sun to draw the Earth back again into God's perfection.

May I now personally thank you for your endeavors, individual and collective, which have done so much at Inner Levels recently? Above all things, the Beloved Master Morya desires an opportunity to reach the minds of some receptive unascended lifestreams to apprise them of the discordant conditions at Inner Levels of consciousness in the atmosphere of Earth; hoping that some unascended beings, on becoming aware of them, would cooperate with the Ascended Ones to bring such "appearances" back into Divine Order again. Without exception, all of Us are amazed at the loving co-operation which already has been given by you and at the tremendous results (at Inner Levels as well as in the physical appearance world too) which this co-operation has brought about.

Last evening some of Us were looking at the records of the various groups of souls awaiting physical birth for whom you have been calling. We saw there that the number of lifestreams who are to come through physical birth into the world of form this year with more perfect bodies, has been increased from five hundred thousand to one million. *This was brought about just through your endeavors!* The outer mind does not fully cognize what this means to many souls who otherwise might be compelled to go through an entire embodiment with physical, mental and emotional handicaps which I shall not mention.

This subject of birth is so dear to My heart that I have asked for a moment to digress upon it; knowing that, according to your comprehension, you will be willing to assist in the endeavor to give every incoming soul a vehicle of flesh, mind and feelings which can be consciously used by the Holy Christ Self.

Purity—A Delicate Subject to the Human

The subject of PURITY is a delicate one; one from which the human mind cringes and the feelings, in self-righteousness, draw away from discussing. Yet, the vehicles which form the envelopes for the souls who will be the builders of tomorrow are so dependent upon the presence of PURITY at the time of conception, gestation, birth and all through the growing years. Now, in the Name of Mercy, I am going to ask you to call for an Angel Deva of PURITY to be present at every conception which takes place from this moment forth; that Angel to radiate Its feeling and substance of PURITY there, until every one upon the planet Earth and all who wait at the Gates of Birth, have come into the realm of form in dignity, beauty, PURITY and peace!

Conception of a soul to be embodied should take place in the greatest possible PURITY so that that soul need not be born in the feelings of fear, violence, deceit, rebellion, resentment or in secrecy. It is no small sacrifice for the beautiful

Devas from My Legions to stand in the atmosphere of Earth and perform this service. However, souls conceived and born in the greatest possible PURITY will have better opportunity to hold a connection with the Holy Christ Self *after* birth and the Body Elemental will be able to work more easily with the musical keynote of the lifestream. Then, as the organs and other members of the body are built more strong and perfect, that incoming soul will be able to render greater service to the race.

Beloved ones, PURITY is a matter of *feeling*; of *consciousness*; of *radiation*! In days to come, when the atmosphere of Earth and of mankind themselves is much more purified than it is today, the "human veil" will have been lifted and every one will be able to see the causes behind spoken words and actions. *Then there will be revealed those who are pure and those who are not!* Let not self-righteousness, scorn or vows of celibacy fool the man or woman who desires to be *pure in heart*. I am speaking to those who have voluntarily chosen celibacy today because of the need of the hour. Your vows of chastity will bind you throughout this whole embodiment. However, since all life is one, I am speaking through you to all mankind, for We must work with the masses.

You see, you must have a great sense of Divine compassion, understanding and a capacity to pour out the feeling of the Flame of Mercy if you are to raise mankind. I direct your attention to our

Beloved Kwan Yin, the Mother of Mercy, Who spends at least one hour out of every twenty-four calling for and working with those who are outside the pale of legitimacy. I also direct your attention to the Holy Mary—the Mother of the Most Pure,—Who renders a similar service. If, at your call, We can secure the assistance and the presence of the Devas of PURITY in the auras of the parents at the time of conception, (particularly the mothers) as well as the radiation of these pure Beings in the homes where the children are to live, We shall have much greater hope of doubling and tripling the number of more perfect bodies which the Great Law will allow Us to provide for the incoming children in the near future.

*Recent Assistance to Those in "Sleepers' Realm"
and Removal of Discarnates from African
Continent*

Beloved ones, in reference to the "Sleepers' Realm", again—the slower the vibratory action of the consciousness and of the inner vehicles, the more dormant the life and the easier it is for that life to allow itself to enter into that realm of unconsciousness. As the vibration of those etheric bodies is quickened by the pulsations of the Flame of PURITY which you have been calling through these "sleeping" ones—particularly lately—their electrons begin to spin more rapidly and the consciousness again comes to life. In the

Realm of the "Sleepers", many, many more have recently arisen from their couches and have chosen to enter into and become conscious members of the Ascension Temples at Inner Levels. This has been done in these last few weeks, through your calls and through your application.

In the Realm of discarnates and the Earth-bound, in Asia alone over one thousand have come forth; in Siberia, ten thousand; in your Western Hemisphere, one thousand.

This morning I am going to ask you to join Me in calls to the Ascension Temple at Luxor (Egypt) for the greatest release of discarnates from Africa that has been known for many ages. Africa—the Dark Continent; Africa—the home of the degenerate races; the greatest concentrate of carnivorous animals and reptiles on the Earth today; Africa—the focus of the greatest psychic and astral creation on our planet at this time!

As the focus for the release of the Transmission Flame during this thirty-day period, the Brotherhood at Luxor (while Their Ascension Flame is more active) will be able to cut many of the discarnates free from Africa, removing at Inner Levels the cause of that which has manifested as voodooism, certain cannibalistic tendencies and various activities with which the average individual is not acquainted. Few unascended beings know what goes on in the heart of those jungles! As the Ascension Temple has asked this morning for your co-operation and assistance; as the Be-

loved Lord Michael and the Angels of the Blue Flame go into action over Africa and as you now join your voices in song, We are going to endeavor to remove over half a million of these discarnate individuals who really do not belong in Earth's atmosphere. (At this point audience sang: "Purify their Souls, O Flame 'I Am'").

Dear hearts, as this service is being rendered, around the entire African Continent stand the Legions of Lord Michael with blazing Swords of Blue Flame raised. This is the first time you have been asked to join the ranks of those God-free Legions consciously and become a part of this magnificent endeavor. You will note the lines of force connected with the shadows like a great cloud which forms the astral creation over the African Continent. Now, if you will look upon this with Me, you will see the outline of these figures which represent the souls who have not chosen to let go of their connection with the Earth. These are bound there in the atmosphere because, at some time or other, they have been a part of certain blood-rites and other practices of black magic. As your song has gone forth, the Beloved Lord Michael has chosen to descend so that His feet rest just about ten feet above this cloud.

The distressing conditions which drove into America through the establishment of the slave trade are a part of this which is to be removed this morning in one mighty stroke. The entire Negro population of the Earth will feel the release and

relief as the dissolution of this astral creation takes place. Those still unascended who, in the past, were either slave owners or who received vast money grants through the slave trade, will feel a certain pressure of energy being drawn out of their bodies and worlds at this moment. May I explain here that the "slave trade" does not only concern that which incorporated the energies of the American people before the Civil War period, but I refer also to the slavery all the way back to Babylon and even before that!

This is the Day of Freedom! In a few moments, the Lord Michael will suddenly lower His Sword and, as He does so, every one of His Legions (to whom We previously referred as having surrounded the entire Continent in this service) will lower Their Swords at the same time. Just as you would cut the cables which bind a balloon to Earth, thus letting it rise into the atmosphere, so will the lines of force be cut by those swords—those lines which hold the astral creation in its present place. As that is being done, one of the Angelic Beings from Michael's Legions has been assigned to each discarnate who, when it is cut free from the mass pressure and pull which holds it, will instantly "float" right into the arms of this Being Who will take it from the Earth and into other Realms which have been prepared for its purification and instruction. Into Michael's Own body there will be absorbed and transmuted the destructive effluvia of this astral creation. It will

be a good picturization for you to watch that inky substance being absorbed into His light through His body and then rush out at the top of His head as a golden pink Flame of loving adoration to God. It is a magnificent thing to see sublimation (refining by fire) through an Archangel.

Now, I believe He signifies that He is ready; so—will you please sing again—this time *to Him*—in order that He may use your energy so released as the authority from the physical octave of Earth which will allow this action to take place as He now lowers His sword. (Audience sang to Archangel Michael). Thank you, beloved children of Earth! In the days that follow, will you try to remember Lord Michael in this act of drawing through Himself the karma of every lifestream who has used the life energies of another through slavery and, in love, transmute it back into a Flame of Adoration to God? When the effluvia of the world is deliberately directed at you, can and will you do likewise? Can you bring back then to your mind the picture of an Archangel so glorious, so beautiful, so majestic and so pure, standing over a Continent filled with such human impurity, and then, in the matter of an instant, drawing these clouds of iniquity through His Own light body, blazing like the Sun at noon-day and making of them music, exquisite color and a paean of praise to the Universal? Now, yours is the same opportunity; the same substance of light. *The same powers of transmutation and sublima-*

tion are available to you! As the violent destructive energies in the atmosphere of Earth swirl backward and forward seeking redemption, the opportunities are numerous for such sublimation by you and, of course, you will gain your own mastery much more quickly by giving such service.

Everyone Deals Only with Impersonal Energy

If you can realize that you only ever deal with *impersonal* energy and if you will stop stamping personality upon it, you will save yourself much agony of feeling and, in dignity, you will be able to transmute and return "Home" whatever clouds of human creation contact or pass through your consciousness. *Within that energy, spewed forth in hate and in all manner of reviling, is the pure electron; is the very body of Myself (pure electronic light), bound in shadows, seeking redemption and freedom. What matters the clothing upon it if it be less than perfection? It is simply something which yet remains to pass through the Sacred Fire of Purification before this Earth can truly be called "The Star of Freedom". While there is yet one unkind thought, feeling, spoken word or deed; while there is yet any impure radiation at all—"Freedom's Star" is not complete.*

So, if you should be the recipients of some of that homecoming energy of discord, you can release and redeem that energy through the impersonal dignity of the use of the Violet Transmuting

Flame or the Cosmic Blue Lightning of Cosmic PURITY from My Own Heart. Then that which is driven *toward* you in hate will go forth *from* you in freedom and as a paean of praise to the Universal God. When you do this, you become an Open Door for the redemption of the polluted energies of this planet. *Someone must do it and that is really what you offered to come into embodiment here to do! It is your reason for being and it is your opportunity to gain your own mastery by rendering a great service of purification to the Earth.*

Turning Our attention for a moment to those in what has been called "The Compound", three more of those who yet remained within that darkness have now joined the group which has come forth. Theirs is a most difficult task—in having to daily return into that concentration of hate, after having taken a public stand to accept the Will of God and the assignment of the Karmic Board. Yet, each one of them has gone back for one hour of every day; they have lived up to their vows and that, in itself, is quite miraculous for I need not tell you that all of you within this room have made vows (more than once) that you were not able to keep because of certain frailties of the flesh. However, since they came forth from the "Compound" and bent the knee to the Presence of God, not one of them has refused to return to that "Compound" for one hour out of every twenty-four.

As two results of that, they have three new recruits and even a more magnificent activity can now take place. The Law is now allowing Beloved Lord Michael Himself to enter the "Compound",—not in the blazing light with which you are familiar but, through mercy—clothed from head to foot in deep indigo blue. Even His glorious golden hair is covered with a cowl and only the radiation of His gentlest love silently permeates that atmosphere. Once in every twenty-four hours that Silent Figure passes through the "Compound"; none knowing Who He is. However, before the year is out, you will see a change in the consciousness of those who dwell there; for no one can be exposed to the love of that Being for very long, without *eventually* becoming that love which He is!

I thank you for your attention, and for your love. I am grateful that the Cosmic Law allows Us to give you even a slight glimpse of what your applications are accomplishing and I command that, as you return home and into your own sphere of influence after this meeting today, that My Cosmic Flame of PURITY shall keep accelerating the vibratory action of your thought, feeling, spoken word and deed, your etheric bodies and your flesh until you completely "tune out" of every rate of vibration which would let you accept imperfection again.

Within every electron which is released from the heart of God is the power to create and sus-

tain the Kingdom of Heaven for yourself, your family, your world and the students entrusted to your loving care—right here on Earth. Within it is My Flame of PURITY. Right within the brazier of your heart you carry the most powerful concentrate of the "Atomic Accelerator" for which you in this group have been calling for so long. You have full and free access to all that We are and all that We have. Today, through the concentration of My Flame of PURITY released from My Presence with you here, I have washed from your inner and physical vehicles (bodies) literally tons of the accumulated atomic consciousness of impurity and imperfection. Please accept this as having been done for you—in the Name of God—and go forward God-pure and God-free!

Remember that the present vibration of your own atomic consciousness (even though you rail against it) is more comfortable to you in this physical appearance world than a more rapid vibration would be and a tendency to "settle down" back into that cocoon is ingrained in the habits of the human race and the feelings of the outer self. The tendency to lethargically accept the pattern of imperfection must be guarded against! You must hold, hold, hold to the power of God and to PURITY which allows the concept of your own Divinity to flash through your mind; to fill your feelings with happiness and ecstasy; to charge your etheric body with God's pattern

of perfection and to externalize through you as magnificent, useful, vital, living flesh.

I shall watch now and endeavor to help you to hold that light which has been drawn forth about you and help you to sustain it until, after a short interval, Beloved Vista (known to you as Cyclopea) will bring to you the activity of CONCENTRATION which is within His Ray.

Good morning to you and God-blessings from My heart!
